

Press Release

For immediate release, 15 September 2008

Saltwater Gamefish of North America Eighteen Card Set

New York, NY—Scott & Nix, Inc. is proud to announce the release of a set of deluxe note cards featuring the most exciting saltwater species for anglers across the continent—striped bass, bonefish, false albacore, tarpon, redfish, and snook. The 5 × 7 inch cards are printed on creamy heavy-weight paper and are presented with envelopes in a deluxe clamshell keepsake box. These handsome cards are the perfect way for any angler to send greetings throughout the year. Whether it's a birthday, graduation, or to invite a best fishing buddy to hit the salt, fishermen and women can say it with style using the Flick Ford saltwater notecard set.

Flick Ford has traveled across the continent over the past 15 years to personally catch each type of fish and faithfully render them as no one has before. A talented musician and graphic artist, Ford began painting fish in the 1990s because “I felt I should start to keep a record of the fish I caught. I wanted to catch and paint these fish, and show how they appear to me in all their iridescent beauty.” Ford's current paintings are collected in two books *Fish: 77 Great Fish of North America* (Greenwich Workshop Press, 2006) and *Big: The 50 Greatest World Record Catches* (Greenwich Workshop Press, 2008).
